

Client Website Handoff Packet

1. Website Summary

Thank you for working with me on your website project. Your new website has been designed, deployed, and is now live.

Below is a summary of your project details and important instructions.

2. Site Login & Access

- Hosting Platform: Netlify
- Website URL: <https://yourdomain.com>
- GitHub Repo (if applicable): <https://github.com/yourusername/project>
- Domain Registrar: (e.g., Hover, GoDaddy)

Make sure to save your login credentials securely.

3. How to Make Edits

If you'd like to make changes to your site, please contact me first. Minor updates can be done easily, while others may require redevelopment.

Alternatively, I offer monthly maintenance plans.

4. Hosting & Renewals

- Your site is hosted on Netlify (free tier covers most needs).
- Your domain will need to be renewed annually through your registrar (~\$12-20/year).

5. Email & Contact Forms

- Your contact form is configured to send submissions to: [\[your-email@example.com\]](mailto:[your-email@example.com])
- Check your spam folder occasionally, especially if you're using a custom domain.

6. Support & Maintenance Options

I offer ongoing support, including:

Client Website Handoff Packet

- Content updates
- Form management
- SEO optimization
- Feature additions

Contact me to set up a plan that fits your needs.

7. Final Notes

You're now the owner of your domain and website. Keep your account logins safe. If you have questions, reach out anytime.

Thanks again!
